READING	WRITING	MATHS	INQUIRY/OTHER
Task	Task	Task	Task
<p>We are encouraging students to recognise and read their M100W words in places other than their M100W book.</p> <p>Using your list of M100W words, create a game to practise your words. Here are some ideas:</p> <ul style="list-style-type: none"> - Write the words for your child with chalk outside, read a word and your child finds the word and squirts it with water. - Write the words for your child on a big page, read a word for your child to find and circle on the page. - Write the words for your child, say the word and have your child find it and trace over the top. 	<p>Once your child has completed their inquiry activity, they can write a sentence about one fact they learned about what animals eat.</p> <p>For example: Bears like to eat fish.</p> <p>Ask your child to attempt to write a sentence with no help from an adult. If your child asks how to spell words etc, encourage them to write letters/sounds they can hear.</p> <p>Celebrate any sounds that your child is able to write in words. Some students may write a string of random letters, some may write some sounds in words, each child is on their own learning journey.</p> <p>Parents/carers can now write what their child wrote underneath.</p> <p>Child traces, then copies parent/carers writing underneath.</p>	<p>Today you will be playing 'Get out of my Rocket'. This game is just like the game 'Get out of my House'.</p> <p>Create your own game board by drawing rockets with numbers 2-12 on them. Here is an example:</p>  <p>Watch the following video which explains how to play 'Get Out of My House'. Get out of my House</p> <p>If you do not have 2 dice at home, you can use this online dice roller where you can select the type of dice/how many dice you need. https://toytheater.com/dice/</p>	<p>We are learning to understand living things.</p> <p>Watch this video: What do animals eat video</p> <p>Discuss what sorts of things animals eat.</p>
Too hard?	Too hard?	Too hard?	Too hard?
	<p>Watch the following video to help assist with letters and sounds.</p> <p>Little Learners Love Literacy</p>	<p>Play the game using one dice and the numbers 1-6.</p>	
Too easy?	Too easy?	Too easy?	Too easy?
	<p>Write a sentence and include more detail.</p> <p>For example: The big, brown bears like to catch and eat fish.</p>		

<i>Don't have _____?</i>	<i>Don't have _____?</i>	<i>Don't have internet?</i>	<i>Don't have internet?</i>
		<p>You will need:</p> <ul style="list-style-type: none"> - 2 six-sided dice - game board - 2 different sets of counters (or small household items that can be used as counters) - 2 players <p>How to Play:</p> <p>Player one rolls the two dice. Player one adds the two dice together and places a counter on the rocket with that number. Player two then rolls the dice and places their counter on the rocket with that number.</p> <p>If a player lands on someone else's rocket they can say "GET OUT OF MY ROCKET!" and remove the opponents counter.</p>	<p>Read a book about animals from home.</p>
